PURPOSE

Central to the mission of the Associated Students, Incorporated (ASI) is the provision of programs, services, and facilities to meet the non-instructional needs of the students at California State University, Long Beach (CSULB). At the same time, ASI has a strong commitment to complement the educational programs of the university and promote the intellectual and cultural life of the campus and surrounding community.

ASI's Policy on Facilities Use intends to establish general guidelines for the use of ASI facilities, protect the mission and the image of ASI, ensure the appropriate and safe use of ASI facilities, and provide a mechanism to resolve conflicts.

A major goal of this policy is ensuring protection for all participants in events that might be expected to bring people to campus or that might present a substantial risk to the campus community.

POLICY STATEMENT

It is the policy of the Associated Students, Incorporated, that ASI's physical facilities be used primarily for student services, programs, and activities in support of ASI's mission. Pursuant to ASI's Operating Agreement with the Trustees of the California State University, this usage is nonetheless subject to:

- The use of the property for civil defense purposes or in the event of a State or national emergency.
- The unanticipated need of the State to meet the demands of the educational objectives of the University.

When facilities are not needed for ASI's purposes, it shall be the policy of ASI to make these facilities available for use by campus and community groups.

For purposes of this policy, "ASI facility" shall include all spaces owned by or leased to the ASI, whether on the campus itself or at other locations.

This policy applies to the use of ASI facilities by university groups as well as groups from the community for all activities other than the following:

- The use of ASI facilities by university groups for the administration and operation of programs and services that provide a direct benefit to students of CSULB consistent with ASI's mission
- The use of ASI facilities for the provision of recreation, leisure, retail and food service operations for the convenience of the campus community
